

Dear Mr. Bause-Mason:

This letter is to voluntarily submit Dolby's Class 14 Universal Labels, identified in Schedule 1, contingent on the publication of SMPTE Registered Disclosure Documents (RDD) 47 and 56 such that SMPTE RDDs contain references to any of the Dolby Class 14 Universal Labels identified in Schedule 1. (the "Dolby ULs")

To be clear, the Dolby ULs identified in Schedule 1 are used in reference to Dolby Vision MXF carriers, specifically isochronous stream of XML documents (ISXD) and track files for JPEG 2000 codestreams with time-synchronous metadata (PHDR).

Subject to SMPTE's publication of RDDs 47 and 56, and such documents including any of the Dolby ULs, Dolby hereby consents, in perpetuity, to SMPTE's: (i) registration of the Dolby ULs with the SMPTE RDDs 47 and 56 registries; and (ii) use of the Dolby ULs so included in SMPTE RDDs.

For clarification: (i) no rights, licenses, permissions or consents are granted under this letter except as expressly provided herein; (ii) nothing in this letter grants any license, right, title or interest in or to any patents owned or controlled by Dolby, either directly or by implication, estoppel or otherwise; and (iii) Dolby makes no warranties regarding the Dolby ULs nor any use of the same.

I trust this letter provides a contribution to SMPTE's efforts to open media technology.

Sincerely,

Name: *Dave Schnuelle*
