Stereoscopic 3D – Where are we now?

Happy Hour (RSVP)
Your Montreal SMPTE chapter would like to invite you to a Happy Hour where you will
be able to exchange with other participants. We will also take this opportunity to discuss
up-coming SMPTE elections. A snack and beverages will be served.

Post CES 2012 Presentation
By Mr. Maxime Caron, P. Eng. (Société Radio-Canada)
M. Caron, will present a brief overview of the Consumer Electronic Show 2012 (CES),
which was held in Las Vegas, January 10th to 13th. The CES is the world largest
consumer electronic show. M. Caron will, once again, talk about the newest
technologies and especially the ones related to the broadcast world, such as:
• SmartTV
• 3D Television
• 4th generation
• mobile networks (HSPA+ and LTE)
• Product design
• 3D mobile television
• PC and tablets novelties
• Automobile sector eco-systems
• Industry general orientations

Stereoscopic 3D – Where are we now?
By Mr. Jean-Claude Krelic, Director Product Development at SENSIO Technologies,
Mr. Krelic will give an update on the status of the 3D market as well as on some new
technologies.

3D Market status:
• Number of new 3D releases planned this year
• Positioning of the 3D and its hurdles
• Status of the 3D cinemas around the world
• Status of live 3D events as well as major 3D events

Technologies:
• New auto-stereoscopic displays
• 3D Projectors
• New VOD and OTT services for 3D
