# Call for Papers

## Toronto Technical Seminar - BootCamp VII

**Pixels and Packets: Exploring UHD, HDR and Live IP**

The Toronto Section of the Society of Motion Picture and Television Engineers will be holding its popular biennial Technical Seminar, June 21/22, 2016. With the rapid and wide-ranging changes taking place in pixels and packets delivery, the theme for this year’s seminar focuses on exploring UHD (Ultra High Definition), HDR (High Dynamic Range), and Live IP technologies and techniques.

SMPTE is celebrating its centennial this year. Why not be part of this historic event by becoming a presenter.

We'd like to invite you to deliver a presentation on a topic you feel is relevant to our theme Pixels and Packets: Exploring UHD, HDR and Live IP. Feel free to offer a subject from the leading edge of your knowledge and experience. Our Organizing Committee has come up with a few topical suggestions:

- Image Acquisition
- UHD: Bigger, Better, Faster Pixels
- Color and Dynamic Range Management
- Standards for UHD and IP
- IP technologies for live production
- Post Production workflows
- Dealing with SD and HD in a UHD world

You are invited to submit one or more brief abstracts outlining the topic to be covered and paper title, illustrating the proposed breadth and depth of the content. The presentation delivery time should be between 30 or 60 minutes in length including an opportunity for attendee Q&A. Submission of an abstract implies the presenter's ability to attend and deliver the presentation. Remote presentation (via internet) will be considered if proposed in the abstract submission.

Abstracts should be limited to 250 words and should include presenter's name, title, company, mailing address, telephone, and e-mail address. Abstracts are due on or before Friday, April 22. Notification of acceptance will be provided by Friday, May 06, 2016. Finalized presentations are to be submitted for review by Friday, May 27th.

Submissions should be sent by email to: [smptepapers@gmail.com](mailto:smptepapers@gmail.com)

**Presenters will be welcome to attend the BootCamp VII in thanks for their contribution.**
