Topic: IP Architecture & Measurement for Production

Date:      Tuesday, March 12, 2019
Time:       Presentations: 7:00 PM (Pizza & Pop Dinner is provided at 6:15 PM)
Location:  Rogers Communications Centre - Ryerson University
            Room RCC-204 – 2nd floor, 80 Gould Street, Toronto

Arranged By: Sylvia Fantin & Shawn Kelly
Sponsor: Cisco Systems Canada

SMPTE Toronto section continues the theme of transitioning from SDI to compressed and uncompressed IP infrastructure by focusing on practical considerations in IP fabric for media, high quality video assessment / measurement best practices, and network concerns in remote broadcast production.

This will be an exciting opportunity to hear from industry experts. Presenters for the meeting include:

Anup Mehta – Sr. Product Engineer, Cisco
Drew Kikauka - Principal Architect, Rogers Media
Gord Langdon – P.Eng, Video Applications Engineer, Tektronix

This session is open to SMPTE and Non-SMPTE members

It is election time again. SMPTE members, please keep an eye out for an email from head office providing direction on when and how to cast your ballot for section managers. All Associate, Professional, Fellow, Executive, Life, and Honorary Members are eligible and encouraged to vote!

The SMPTE Toronto section is a volunteer organization and requires “many hands” to produce quality meetings. If you are interested in learning more about how you can support SMPTE please drop us a line at smptetoronto@outlook.com

The SMPTE Board of Managers will meet in room RC102 (street level) at 5 PM
