TV5 – Station Complete Hot Standby

Happy hour (18:00 to 19:00)

Join us in a relaxed and cosy atmosphere to celebrate the kick-off of the 2015-2016 season of SMPTE Montreal presentations. For this occasion, appetizers and drinks will be graciously offered.

TV5 – Station Complete Hot Standby

What would you do in case of a fire, explosion or other major disaster? How to swiftly and efficiently get back on-air. That is exactly the question Régis and his team where faced with.

Tonight, with the help of Grass Valley, their technology partner, they will discuss the adopted solution, it's implementation and how they tested it in secret and live!

About our presenters:

TV5:

Régis Harrisson, TV5 Operations and Technology Development Director since 2006. Previously, Founder and owner of Allegra Solutions, specialized in consulting and integration for broadcasters.

Rémy Lemerre responsible for system design and operationalization at TV5 since 2008. Remy has been in charge for the relocation of all TV5 Canada’s technical operations as well as optimizing work flows

Grass Valley

François Gourvil is Market Segment Manager at Grass Valley, Montreal and concentrates on all aspects of signal broadcasting. As such he jointly works with Grass Valley platform development teams including iTX, STRATUS Playout et K2 Summit.
